Rubric:

0.- GitHub	/100%
1.- Interview	10/10
Everyone is present	
2.- Project definition	9.5/10
The English is misused, it makes reading difficult, otherwise everything is fine	
3.- Software Requirements	0/10
Document not found.	
4.- Use Case	9/10
In some cases, the complement is missing, and others are left off at the analysis stage.	
Recommendation: The actor on the left and the cases on the right	
5.- Class Diagram	11/10
They used three packages +1	
6.- Data files	10/10
Has 4 Json and fulfills the syntax	
7.- Execution	9/10
Run	2
Menu	1
Error in (6) menu option (Recommendation, modified this part to exit the program).	
Missing exception of not putting spaces -1	
Data is inserted	2
Data reports	2
Consistent with use case	2
8-10.- Clean Code	29/30
Code meets line extension in main	
The codes on controller package are much extensive -1	
Recommendations: Although the presentation helps the user, it also occupies many line codes, take into account	
GRADE	87.5/100
