project folders 5/5

Letter of customer/user 4.5/5

Name: ok

Position: Ok

Company: Ok

Cell Phone Number: Ok

email address: Ok

Observations: Ok

Recommendations: Ok

Signature: (-0.5) less signature

Running the project 28/35

User(s) 5/5

Ask the other teams for users and passwords

Use other password -> ok

Use other user → ok

Running, navigation, print outs 9/10

While running, (navigation button) 3/4 (-1 no back button)

check the database information,if is updated/deleted/recovered from the collections 4/4

print out a report (ask the leaders) 2/2

DB (Structure and persistence) 10/10

Class Diagram classes versus collections → ok

collection <-> class(not every class will be a collection) → ok

field <-> attribute →ok

Forms (input validations) 4/10

not validate names(-1)

not validate email (-1)

not letters only (-1)

not numbers only (-1)

not special inputs such as Special ids, (-1)

not validate grades(-1)
