Open Source: Doesn't mean it's necessarily free, it means you can change it for your purposes

Free software isn't always open source

Thinking as user and programmers you rather free software and open source

Instead of having a lot of files we prefer having versions

x y z
V. 1. 0. 0

V. 2. 0. 0 → (Windows → Mobile App)

V. 2. 1. 0 → (Data Files → DB)

V. 2. 1. 1 → (Database connection fixed)

10 firsts Names and versions of windows!

Windows 1.0: November 20. 1985 Not an actual O.S

Windows 2.0: December 9. 1987

Windows 3.0: May 22. 1990

Windows 3.1x: April 4. 1992

Windows NT 4.0 (Cairo): August 24, 1996 (W. 95) M.S.D.O.S

Windows NT 5.0 (2000): Feb, 17, 2000

Windows 6.0 (Net): Sept, 14, 2000

Windows XP: Oct, 25. 2001
